Dear Ms. Takano and Ms. Taylor,

Thanks to the Workforce Investment Board, my office and County Regional Parks had the privilege of working with the Career Institute as a partner on the Glen Helen AQMD Tree Planting Partnership project.

The Career Institute truly embraced this project, and your staff committed 110% of their energy to making it a fun, successful learning experience for our partners and especially for the student workers.

Your enthusiasm was infectious and made for a positive experience for everyone involved.

The Glen Helen tree planting project was beyond what I ever expected. Every last detail, from the Glen Helen Green Team t-shirts to the activities planned for the student workers, was seamless largely due to your efforts.

You two are absolute pros. Thank you for making a difference in the lives of our youth.

Sincerely,

A handwritten signature in black ink that reads "Paul Biane".
