

# CAREER INSTITUTE

Specializing in Career, Education and Life Planning

www.cinow.org

Greetings!

As owners of The Career Institute, We'd like to thank you for your participation and support of The Leadership Connection, 2010. We're very excited about this year's opportunity to nurture and develop the young leaders of tomorrow by creating a dynamic learning experience with the cooperation of local Chamber business leaders. It is our hope that as a result of this program, these young people will make meaningful connections with the many forces in our community.

In full cooperation with the Apple Valley Chamber of Commerce and with the financial support of the Wilmas Foundation and the Workforce Investment Act, we hope to make this year's events even better than last year's.

We will be kicking off the program on April 16<sup>th</sup> and 17<sup>th</sup> at the beautiful RW Ranch in Lucerne Valley. Here our young adults and mentors will take part in many interactive presentations and learning sessions that will help them further understand their true potential as the future leaders of our Community.

We are very grateful to the many organizations who will be taking part in this year's program, specifically St. Mary's Medical Center, The Lewis Center for Educational Research, Apple Valley City Offices, The Southern California Logistics Airport and the Mojave Water Agency. Our program would not be possible without the help of these key organizations.

We would also like to thank the Apple Valley Chamber for allowing us to participate in their annual Awards Ceremony as a closing activity for this program.

At The Career Institute, we feel very strongly that great leadership is not something one is born with, but rather it is developed through mentorship, knowledge and relevant community experiences.

Our collective commitment to programs of the nature will help us develop the type of leaders that will shape our communities and the world in generations to come.

Warmest Regards and Success,

Teresa E. Taylor, CEO Career Institute and Judy Takano, CFO Career Institute
